

Technical Application Guide for UP-SHINE LED Under Cabinet Light UP-DB10-41-26W-D

Introduction

DB10 LED Under Cabinet Light, mainly designed for North American market. Energy consumption of DB10 is only one tenth of incandescent lamps, a guarter of energy saving lamps. It is slim, small in size, environment-friendly and long life. Simple installation saves the installation costs. There's input interface in both ends, clients could link the light one by one till max 400W according to different application requirements. Users could control each lamp separately since separate switch on lamp. The housing adopts high hardness SPCC sheet-metal. DB10 cabinet light adopt high lumen led chip with RA>90, cover is made by 94-V0 firerated PC. Uniform and soft light output offers the most comfortable light experience for customers. Six models optional: 12"-8W, 18"-12W, 24"-16W, 32"-22W, 41"-26W to meet different requirements.
