Up-shine Lighting

/company profile/

Founded in 2007, as a leading LED indoor lighting manufacturer, Up-shine has built a good reputation at home and abroad with top quality products, advanced lighting solution and cheerful after-sales service.

Up-shine devotes itself in researching, developing and manufacturing a full range of lighting products with most cost-effective solution. We've committed to improving ourselves paying more attention to customer demand, focusing on making people's life more safe and comfortable, enabling them to enjoy new technology and efficient use of resources.

Covers an area of 15000 square meters, equipped with over 500 front-line employees and 56 qualified engineers, Up-shine is growing up very fast as a medium sized enterprise. 36 outstanding staff serve quality department, forming a high level quality system, which provides us a favorable pullulating environment.

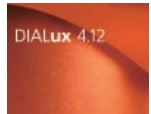

With clear marketing orientation, sustained technical innovation and internationally -updated management philosophy, Up-shine must be a great choice as your reliable long-term partner, you can count on us to provide all possible lighting service.

SERVICES METHODE

Up-shine Lighting, as a leading led light manufacture, has a strong R&D department with 66 engineers. More than 95% led light products are up-shine own-designed. We are committed to develop new products constantly, keeping releasing at least 2-3 new products every month. We've got 25 patents for design, development and technology up to now.

OEM & ODM service is available in Up-shine, we're willing to share or bear the mold fee.

With independent driver R&D laboratory and product line, Up-shine driver series which includes non-dim, triac dim, DALI dim, 0-10V dim and 2.4G smart dim driver, are UL TUV rheinland CB SAA CE, RoHS, etc approved , stable and safe.smart dimming.

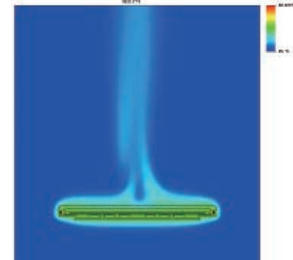

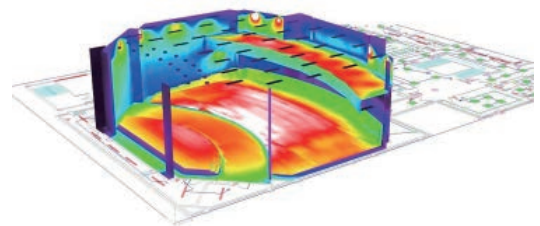

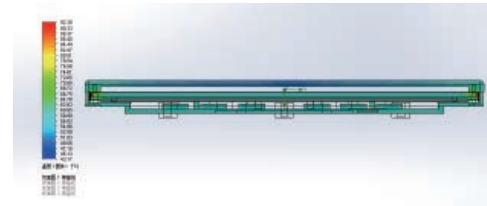

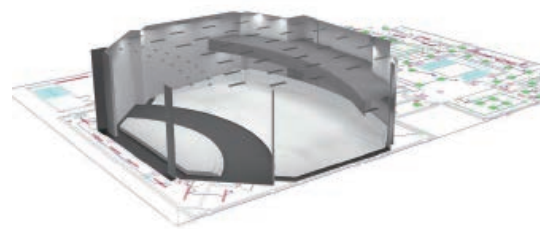

Free Dialux design for lighting project cases is available in Up-shine lighting.

We have a strong engineer team which can provide the best lighting solution according to scientific analysis once customer's project requested.

Using the numerical software, you will consult the photometric characteristics of the luminaire in view of a suitable application.

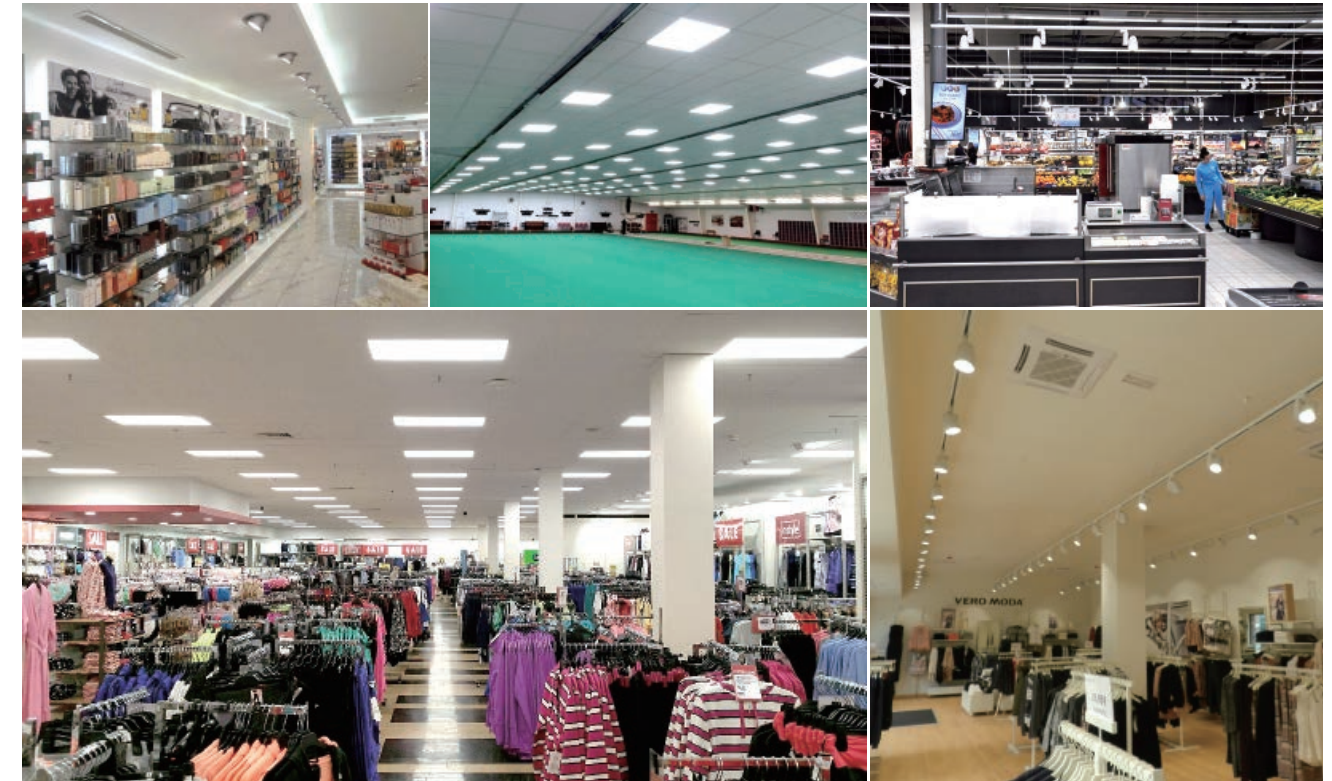

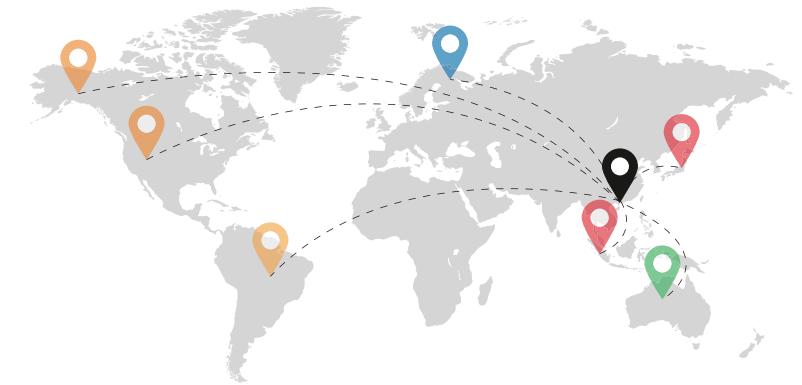

Each high power Led lamp will be analyzed strictly on thermal design with Solidworks by engineers, which helps to select the superior thermal conductive materials to improve heat performance of LED products, prolonging the service life of the lamps.

UP-CL76

Up-shine mini downlight is specially designed for European market with standard cutout size 82-88mm. 15°/24°/36°/60° various beam angle for various lighting effect. Smart optical design with combination of COB LED and PC diffuser, maximally reduces UGR down to 19 or even less. 25 degree flexible rotary head makes installation easier and better.

Model	Voltage	Power	Non-DIM Lumen (±5%)				DIM Lumen (±5%)

UP-CL79

CL79 downlight achieves 100 LPW high efficiency by adopting super high lumen COB and excellent light transmittance prismatic lens. Smart cooling system is specially designed in metal device with vertical fins, allow air flow upward and downward smoothly. It has adjustable head for different lighting directions. External power supply, easy maintenance.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-CL81

CL81 Mini downlight is a perfect combination of traditional halogen and its installation fixture. With 68-74mm standard cutout size.

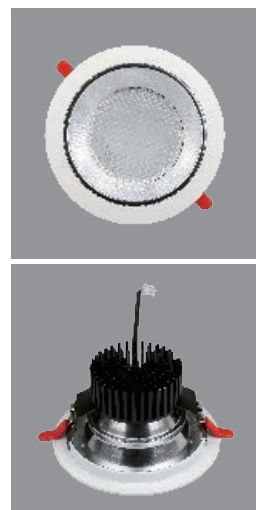

It shares fashionable design and elegant workmanship, PC diffuser and reflector comes with an integrated design, maximally reduce potential danger of glass broken.

Outer trim and heatsink also come with an integrated part, aim at increasing thermal dissipation area, front surface is 60 degree rotary with a larger lighting area.

Fire rated led downlight

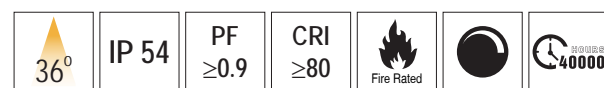

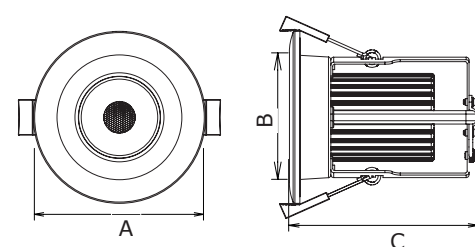

UP-DL81

DL81-2.5-10W fire rated led downlight adopts "Korea LUMENS DOB" design with high efficiency more than 80lm/w.

Focusing on European market, the lamp has exquisite workmanship, fashion and novelty.

Delicate design keep the lamp small and light, compare with common external driver downlight, it's easier to install.

The lamp equipped with waterproof EVA tape which makes frontal protection reaches IP54 waterproof, which ensures the highly-safe performance for customers.

UP-DL87

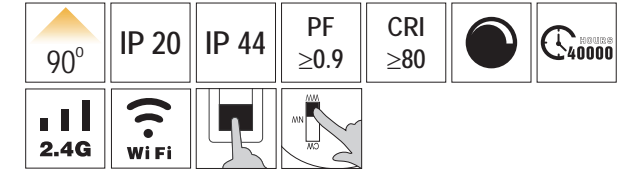

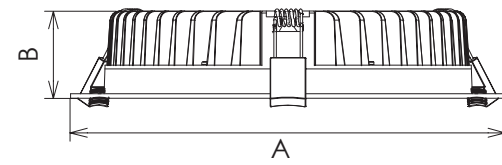

DL87 model is a LED downlight with changeable bezels. Supplied with 4 different shape bezels including big circle, small circle, oval and square shape which creates different lighting effect when downlight turns on.

People can select different bezel according to different applications. This unique design skillfully prevents the human eyes from contacting with the light sources directly, makes the light more soft, and brings the most comfortable lighting experience to customers. The heat sink with V shape cooling fins design makes the heat dissipating performance outstanding and extends the service life of the downlight.

UP-CL22

Up-shine SMD LED Down light adopts high lumen SMD LED, PMMA diffuser with even light output.

White, silver, chrome surface treatment available for different applications.

Triac dimmable, 0-10V dimmable and DALI dimmable version shares great popularity by the excellent dimming effect.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

UP-DL61

Aluminum profile provides excellent thermal dissipation. Fire-rated PC diffuser provides even light output.

Waterproof structural design, IP54 protection grade, ideally for damp locations.

Isolated driver solution both in dimmable and non-dimmable version, achieves great dimming compatibility with worldwide brand dimmers.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-DL41-P3

Up-shine SMD LED Down light adopts high lumen SMD LED, PC diffuser with even light output. 94-V0 fire rated plastic housing with internal driver design; it is our most economical and practical downlight version.

Dimmable version available, it shares great popularity by the excellent dimming effect. The light color (CCT) can be switched among warm white, natural white and cold white by slide switch on the back of downlight.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-DL90

DL90 Downlight is structural designed with integration of heatsink and surface cover, aims at increasing the heat dissipation area. IP54 waterproof for indoor use, especially for damp locations. UL94-V0 Fire-rated PC diffuser provides high light transmittance and even light output. It is an ideal replacement for residential and commercial lighting.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

UP-DL86

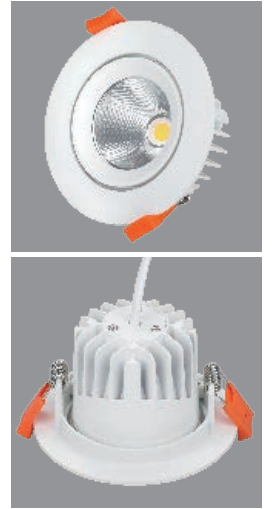

DL86 is a LED downlight which comply with IC-4 certification requirements. Integrated driver structure is more convenient for installation. The front cover and heat sink is a whole entity which can improve heat dissipation performance. The front of lamp with slight curve surface design is not only with softer appearance but also a better sense of touch compared with similar products. IP54 waterproof from front side, it can be widely applied to damp applications.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-CL100

LED downlight CL100 model adopts CITIZEN COB led chip. The reflective efficiency of reflector is more than 88%, makes the whole lamp lighting efficiency reaching 90lm/W maximally. The lamp head can be adjusted from 0-25° in vertical direction, 24° and 60° beam angle are available, it can effectively meet customer's detailed request in different application.

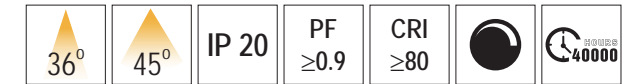

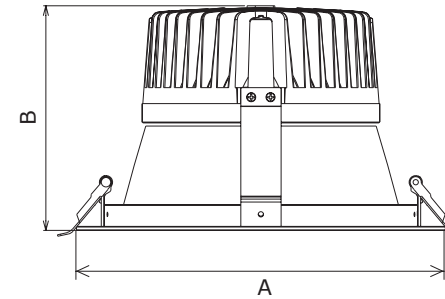

The heat sink adopts die-casting aluminum with V-shape scales design, effectively increase the heat dissipating area for better heat dissipation, and keep the lamp at a stable temperature chronically, extend the lamp lifespan. Triac dimmable version is available, it can match most of TRIAC dimmers well in the market.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-CL94

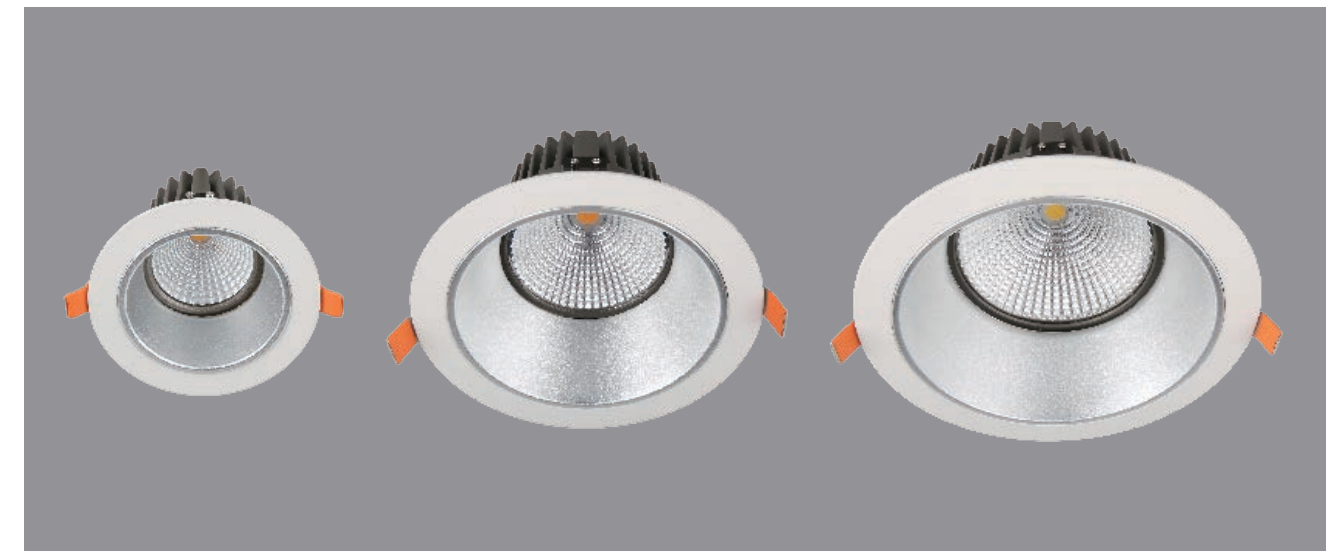

Up-shine new design anti-glare CL94 led downlight adopts Citizen COB chip collocating with deep reflection cup. This unique design skillfully prevent the human eyes contact with the light sources directly, makes the light more soft, UGR<19. Meanwhile the light efficiency reach to 90lm/w with perfect accent lighting performance.

That makes it become the priority selected product for commercial lighting. V shape cooling fins heat sink design increases the interface between heat sink and air, which makes the heat dissipating performance outstanding and extend the service life of the downlight.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

UP-DL22

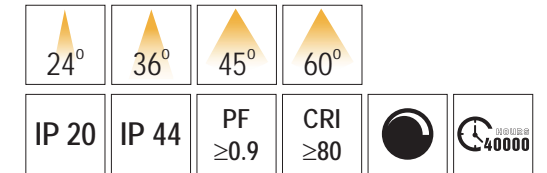

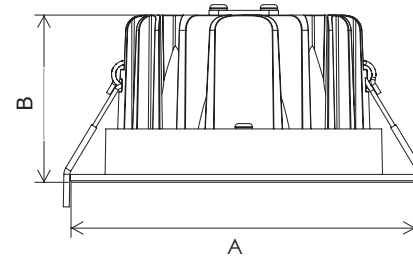

Up-shine COB downlight is unique designed with reflector and COB high power LED chip.

Short heatsink suitable for all kinds of installations.

Aluminium profile provides excellent thermal dissipation.

Isolated driver solution both in dimmable and non-dimmable version achieves stable working performance.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

UP-CL99

High power multiple recessed downlight is becoming a star product in the commercial lighting by virtue of focusing on local lighting. Up-shine new model CL99 not only retains characteristics of traditional lamp, but also improves the performance and function greatly, therefore, it can meet the various and increasing demands.

The unique replaceable module design makes the lamp more easily to install and maintain, customers can change the color temperature and beam angle according to the actual usage areas, to gain the most comfortable lighting experience. 340° wide range rotational angle brings the lamp the maximum and impressive impact on accent lighting and decoration.

Perfect combination of COB integrated chip and reflector, not only offers even lighting but also highlights in the center, makes the lamp becoming popular in commercial lighting. Clear and simple heat sink design with multiple layers of cooling fin connected with each other, increased the interface between heat sink and air, accelerated the air circulation and improved the heat dissipation for lamp.

Application: It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

UP-CL67

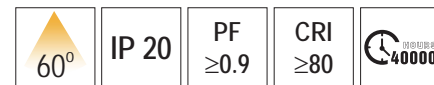

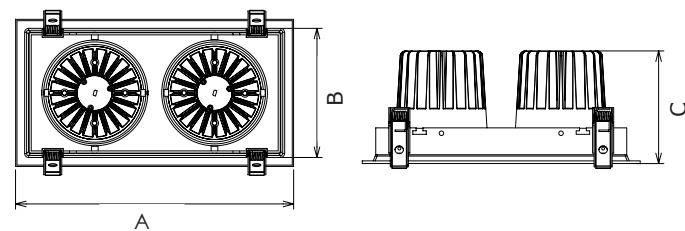

Up-shine COB downlight is unique designed with reflector and COB high power LED chip.

Short heatsink suitable for all kinds of installations.

Aluminium profile provides excellent thermal dissipation.

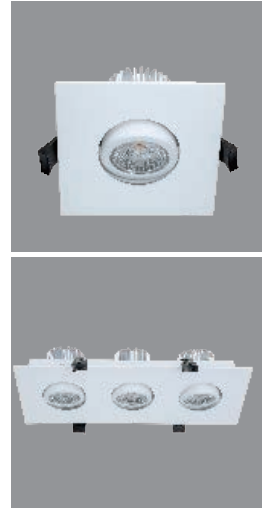

Isolated driver solution both in dimmable and non-dimmable version achieves stable working performance.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

UP-PD02

PD02 whole lamp adopts straightforward design with stylish appearance, easy to install, simple and generous, paying more attention to leisure and comfort. It gives space a clear and lively feelings. The color of surface ring is replaceable, which could create diversified light atmosphere according to different environment.

Suspension wire adopts pull-resistance triple-core wire wrapped with woven cloth. It enhances the tensile strength and easily install compared to steel wire. The lamp adopts high quality reflector which has good reflective rate and light output > 86%. AL6063 Aluminum radiator in sand blast oxidation treatment provides excellent heat dissipation and corrosion resistance. LEDs are high lumen COB chip with CRI>80. Built-in driver is independent and replaceable, which is friendly maintenance. PF>0.9, THD<20%, passed EMC test with strong anti-jamming capability. Besides, it possesses short-circuit protection and overvoltage protection function, showing high safety performance.

UP-RD01-C

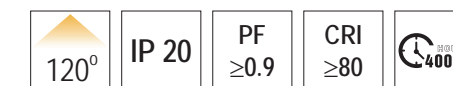

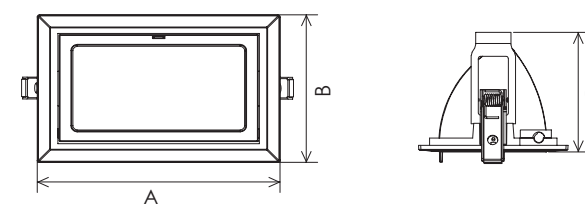

SMD Rectangular downlight achieves high lumen output, 120° wide beam angle.

Aluminium profile provides excellent thermal dissipation.

External driver solution achieves stable working performance and easy maintenance.

Tilt head provides various lighting direction for different applications. Widely used for different commercial lighting situation.

It is designed for general lighting applications in office, supermarket, shop, school, hotel, etc. It is also widely used for public areas, such as stairway, lobby, reception, corridors etc.

LED TRACK LIGHT /series/

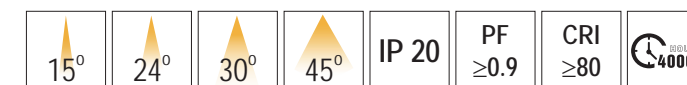

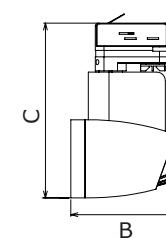

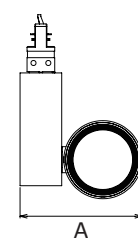

UP-TL02

Up-shine track light adopts High CRI COB LEDs with excellent color rendering index to increase the color fidelity of the target illuminated object.

Providing excellent heat dissipation, even light output without glare & dark spot.

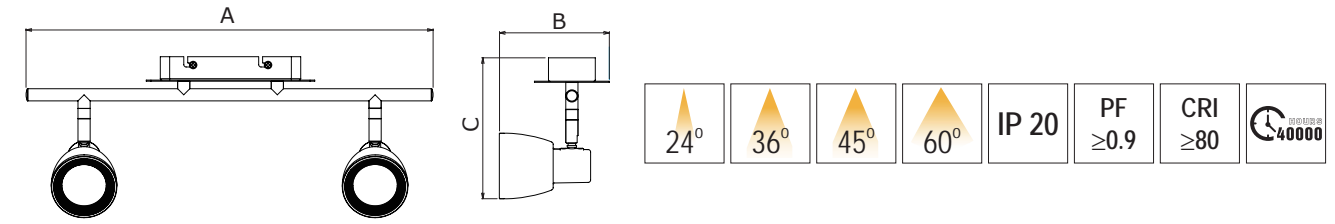

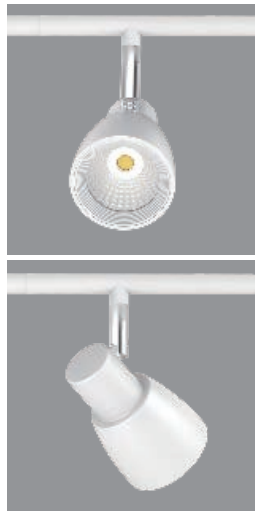

Adjustable lighting orientation with 360 degree in horizontal direction and 180 in vertical direction. 1-circuit adapter, 3-circuit adapter are all available.

Application: It is suitable for supermarket, specialty store, show window, exhibition hall, focus lighting, decorative and background lighting, where attention is focused on subjects to emphasize special visual points.

UP-TL15

Up-shine multi head track light adopts COB LEDs with excellent color rendering index to increase the color fidelity of the target illuminated object.

Surface mount or recessed installation provided for various applications.

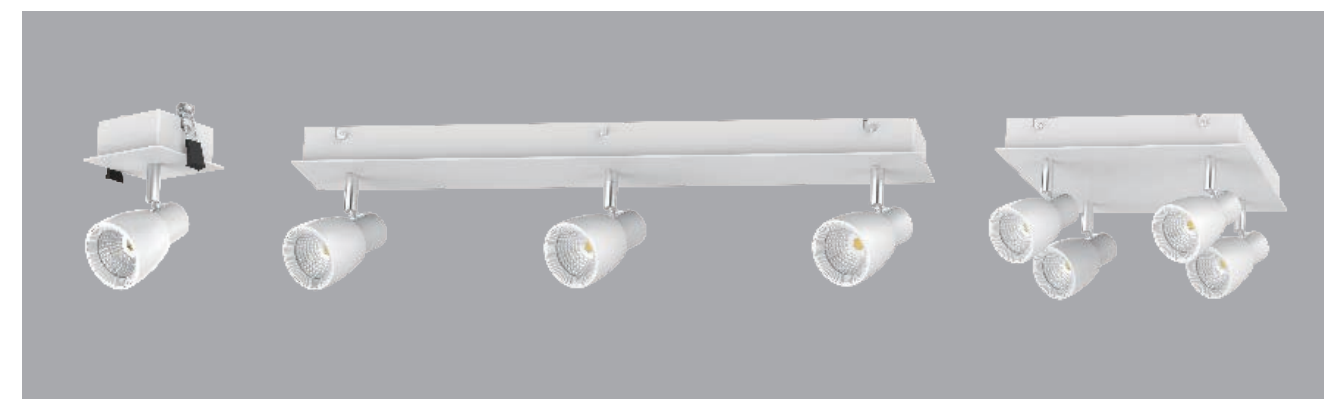

Aluminum body provides excellent heat dissipation, even light output without glare & dark spot.

Adjustable lighting orientation with 360 degree in horizontal direction and 90 degree in vertical direction provided.

UP-TL04-B

Surface mounted or recessed install with kits provided.

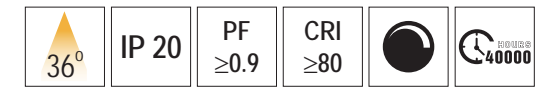

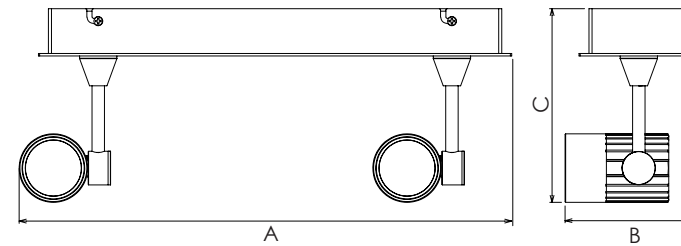

AC200-240V wiring, built in constant current driver.

High CRI COB LED chip, 90lm/W.

Available 1/2/3/4 head for one luminaries.

Adjustable lighting orientation.

Application: It is suitable for supermarket, specialty store, show window, exhibition hall, focus lighting, decorative and background lighting, where attention is focused on subjects to emphasize special visual points.

UP-TL21

To gaze is to look steadily and intently at that which excites admiration, curiosity or interest; to gaze with eyes wide open, as from surprise, wonder, alarm, stupidity; to gaze unbelievably or rudely.

The newly developed T-Gazer track light looks like a Gazer on the track; it is designed in combination of square and circular, they are masterly joined together to demonstrate behavioral philosophies of oriental, this design is clearcut but not abrupt, soft but not monotonous, perfectly integrated into different lighting applications. With high light efficiency, deep cylinder design for light outlet makes the light softer and cozier. Modularization design facilitates replacing universal head connection elements, which realizes diversified installation ways in one lamp. Dimmable available, compatible with a wide range of recommended Triac dimmers.

Application: It is suitable for supermarket, specialty store, show window, exhibition hall; focus lighting, decorative and background lighting, where attention is focused on subjects to emphasize special visual points.

**LED
PANEL LIGHT
/series/**

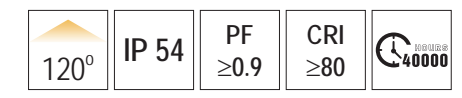

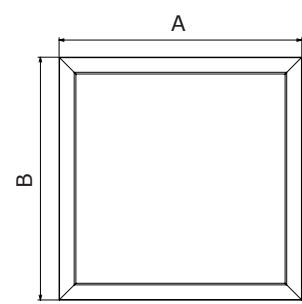

**Waterproof Panel Light
UP-PL3030/6060-U**

Up-shine waterproof panel is a complementary for the existing panel version, normally used to replace grid lamp in damp locations.

IP54 waterproof structural design, high lumen SMD LED chip and external driver in top branded component make it competitive.

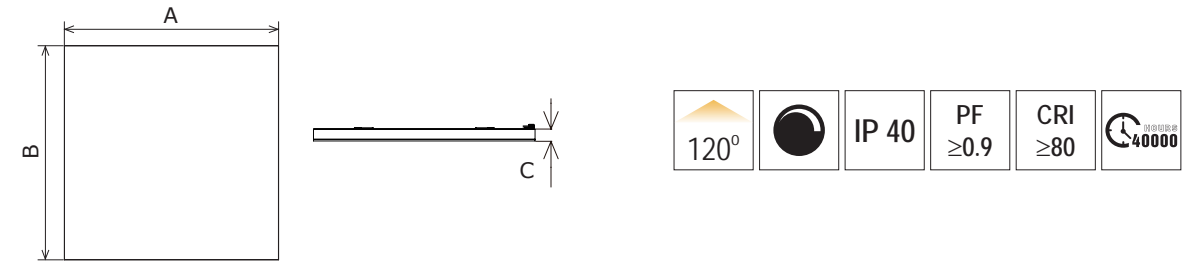

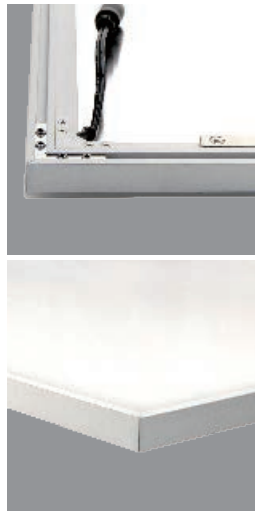

The ultra slim profile fits seamlessly into any workplace. It is available in various installation ways: embedded into ceiling, suspended with hanging wires, surface mounted in a concrete ceiling by using surface mounting frame.

Application: Ideally used for various commercial and residential lighting applications, especially for damp location.

Frameless Panel Light

UP-PL3030/3060/6060/30120-P

Frameless panel is an improved version compared to regular panels.

They are of high lumen output, high CRI>80, top branded driver with stable working performance.

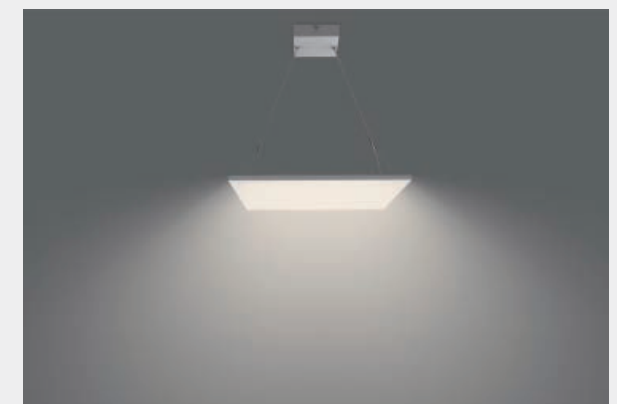

Dimmable version comes with triac dim, 0-10V dim, DALI dim, it shares great popularity by perfect dimming range and great compatibility with worldwide dimmers.

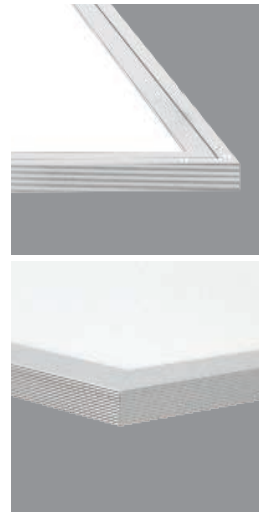

The Frameless structural design makes it special and elegant. 5mm thickness diffuser with extremely even light output provides high quality lighting effect.

Application: Widely used for various commercial lighting and residential lighting applications, such as offices, shopping mall, hotel, restaurant, hospital, home lighting etc.

UGR<19 Panel Light

UP-PL6060/6262/30120/60120-G3

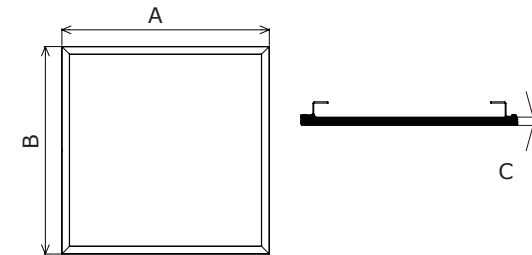

The unified glare rating (UGR) is a measure of the glare in a given environment, Glare is caused by a significant ratio of luminance between the task (that which is being looked at) and the glare source.

With a lower value of UGR, it will reduce discomfort glare.

Up-shine UGR<19 LED panel, a new tendency for high end market, adopts anti-glare diffuser, reduces glare by structural improvement.

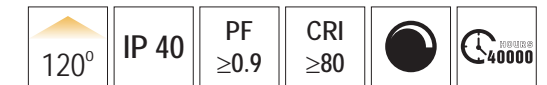

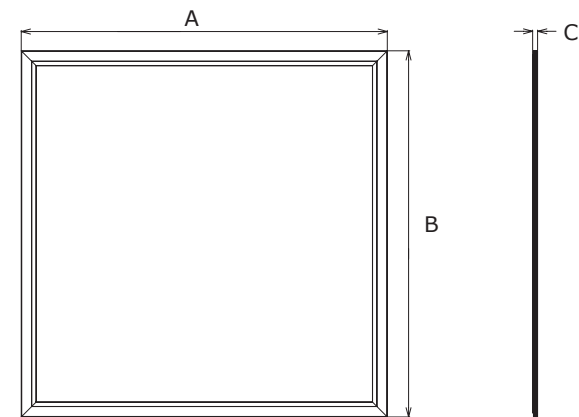

It is unique designed with uniform light and high lumen output.

Dimmable as an alternative choice if you need.

LED Panel Light

UP-PL30120/6060-AD

Up-shine led panel adopts high lumen SMD LED with CRI >80. Top branded driver comes with triac dim, 0-10V dim and DALI dim, it has perfect dimming range and shares great compatibility with worldwide famous brand dimmers.

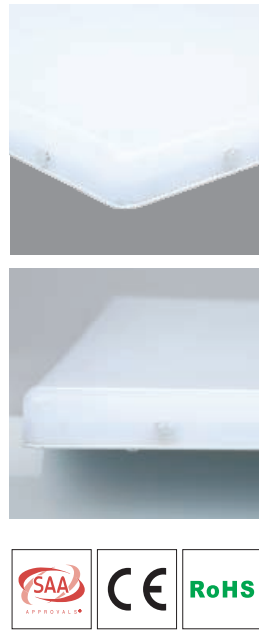

The ultra slim profile fits seamlessly into any work place. It is available in various installation ways: embedded into ceiling, suspended with hanging wires, surface mounted in a concrete ceiling by using surface mounting frame.

Application: Office & school lighting: office room, meeting room, class room etc. Commercial lighting: shopping mall, super market, retailer shops etc. Other situations: hospital, laboratory, dust-free workshop etc.

Upgraded Frameless Panel Light

UP-PL3030/6060-AC

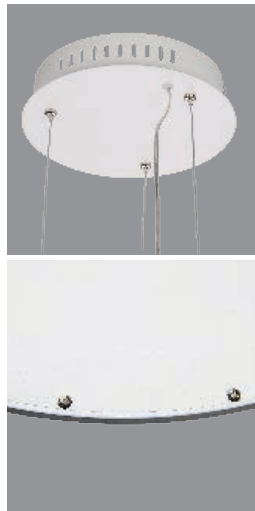

Frameless panel is an improved version compared to regular panels. They are of high lumen output, high CRI>80, top branded driver with stable working performance. Dimmable version comes with triac dim, 0-10Vdim, DALI dim, it shares great popularity by perfect dimming range and great compatibility with worldwide dimmers. The Frameless structural design makes it special and elegant. 5mm thickness diffuser with extremely even light output provides high quality lighting effect.

Application: Widely used for various commercial lighting and residential lighting applications, such as office, shopping mall, hotel, restaurant, hospital, home lighting etc.

UP-GL6060 / 30120 / 60120-B

Up-shine back-lit led grille light successfully keeps high lumen meanwhile reduces the UGR index less than 19 by using the deep curved designed aluminum mirror reflector and prismatic diffuser, which creates the most comfortable lighting experience for human eyes, suitable for school, library, meeting room etc. The whole fixture adopts superior coldroll steel sheets which is surface treated by phosphate, stronger in corrosion resistance, wear resistance and flame resistance. Compared with side-lit led panel light, the light efficiency of back-lit led panel light is much higher, up to 100lm/w. And the luminous flux is more stable and long lasting because unlike the side-lit panel light, it does not use the light guide plate to spread the light.

Application: Office & school lighting: office, meeting room, class room etc. Commercial lighting: shopping mall, super market, retailer shops etc. Other situations: hospital, laboratory, dust-free workshop etc.

**LED Ceiling Light
UP-AL25**

Flying saucer-shaped led ceiling light, super slim and minimalistic design; it is a faultless combination and deduction of smooth lines, making itself impregnated with ceiling perfectly. Elegant design with soft and even light output realizes a perfect blend of craft and art. High quality PC lamp body promises a higher production efficiency and more stable product quality without any subsequent process. Superior PC diffuser with excellent performance, fire rated UL94-V0, aging resistance and yellowing resistance make this ceiling light with longer lifespan. Slim and light lamp body also in PC, it is a good way to minimize the cost of transportation for customer. Replaceable builtin power supply design with easy maintenance.

The driver also adopts fire resistant PC material with higher insulating strength, which promises absolute security. Easy installation, it is twist mounting after fixing the holder on the ceiling, avoid extra nail screw work, safe and convenient.

LED Ceiling Light UP-AL24

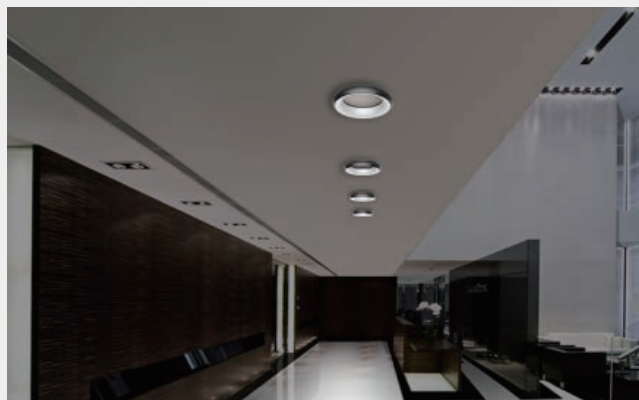

The hollow shape is full of creativity which brings vitality into ordinary lamp body and shows faultless performance, provides a strong sense of space.

The curved light direction emphasizes target object in a smooth and dramatic atmosphere, revealing an unexpected art inspiration design, which brings a comfortable way of visual experience.

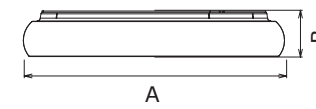

By having an arc luminous surface, we break traditional design. The circular light output offers a magic 3D effect; rotate buckle on the base to make installation easier and faster.

Two installation ways to meet different customer's application, UP-AL24A comes with a surface mounted kit; UP-AL24B comes with a suspension kit, both are very convenient.

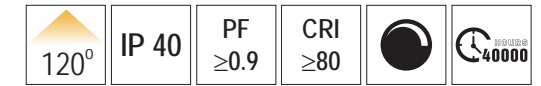

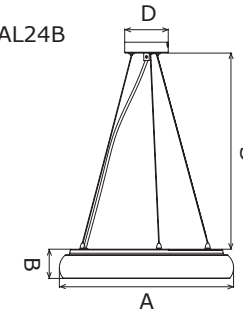

Suitable for leisure location, such as: home, hotel, library, restaurant, cafe shop etc.

LED Ceiling Light UP-AL08/AL08A

Up-shine Ceiling light adopts high lumen SMD LED, PC diffuser with even light output.

High PF LED driver with Triac dimmable function, 120° wide beam angle.

IP54 waterproof structural design, ideal replacement for halogen in damp locations.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

CCT changeable LED ceiling light UP-AL08-P / P3

There are two CCT changeable versions, one is switch on/off mode, model number UP-AL08-P, it works like this: 1. First switch on with initial color A / 2. Second switch on, change into color B / 3. Third switch on, change into color C / 4. Fourth switch on, step backward to color A / 5. Triac dimmable is available once a color has been selected.

Another version is a button options on the back of the ceiling light, model number is UP-AL08-P3, end users can choose the color (3000K or 4000k or 5700k) they want before installation.

LED Ceiling Light UP-AL26

AL26 led pendant light adopts frameless design, maximally increase the light efficiency by avoiding the light expanding to the backward, which highlights the luminaries in darkness with the sense of space and stereoscopic impression. The front cover adopts 94-V0 fire rated PC material, metal cover on the back is good for the lamp heat dissipation, highly extends the lifespan and ensures the security for customers. The driver is hidden by the suspending installation plate, which makes the whole lamp more elegant, meanwhile it is very good for dissipating the heat of driver. Moreover, the lamp adopts hermaphrodite connector and connection terminal for wire installation, which offers easy installation and maintenance for customers. The installation cable can be adjusted by customers to meet their demands.

Suitable for leisure location, such as: home, hotel, library, restaurant, cafe shop etc.

LED Ceiling Light UP-AL29

AL29 LED ceiling light adopts high voltage constant current linear regulator LED driver, it can automatically detect temperature of the lamp during using and adjust current to protect LED chips, effectively extend the lifespan. Compared with traditional LED ceiling light, AL29 is lighter and more graceful by discarding traditional driver. Lamp body structure is much simpler and more convenient for installation. The PC isolation protective cover inside can effectively prevent hands from touching high-voltage lamp plate, and protect the LED chips as well. It is a greatly safe new design LED ceiling light.

Suitable for leisure location, such as: home, hotel, library, restaurant, cafe shop etc.

LED TUBE LIGHT /series/

AL+PC Tube Light

T810W600/T818W1200/T820W1200/T825W1500

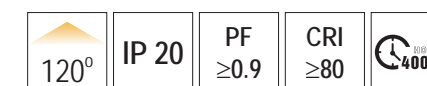

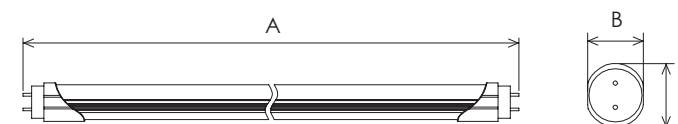

AL+PC LED Tube light adopts LM-80 2835 SMD LED with high brightness and slight light decay.

Excellent cooling system with >0.8mm thickness AL6063 aluminum heatsink.

Clear or frosted cover optional. V0 fire-rated PC cover, up to 95% light transmittance.

Reliable isolated driver solutions with 3750V voltage withstand, branded high quality capacitor and IC solution ensures excellent working performance.

Application: Suitable for commercial and residential applications like office, supermarket, shop, school, hotel, restaurant, workshop, warehouse, home etc.

Complete PC Tube Light T810W600 / 12W900 / 18W1200

Up-shine practical tube T8 adopts complete PC cover, using 2835SMD LED as light source, CRI>80. V0 fire-rated full PC cover ensures high light transmittance and safe installation. No yellowing and cracking. With Built-in aluminum AL6063 heatsink, our T8 tubes achieve high lighting performance and good heat dissipation.

Application: Suitable for commercial and residential applications like offices, supermarkets, shops, schools, hotels, restaurants, workshop, warehouse, homes etc.

Glass Tube T89W600 / 12W900 / 18W1200 / 24W1500

LED Glass Tube is the most practical and economical energy saving design compared to aluminum & PC tube or complete plastic LED tube T8.

These glass tubes distribute light in 180° wide beam angle without dark area and provide high lumen output while achieving efficacies over 100 lumens per watt.

It has translucent crystal appearance, smooth and moist texture, enjoyable experience. High thermal conductivity glass ensures low temperature during operating, which brings reliable and stable product performance throughout lifetime.

Waterproof Tube Light

T1010W600 / T1012W600 / T1020W1200 / T1024W1200

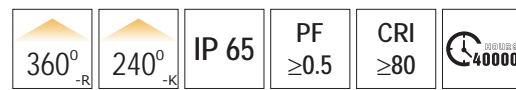

Up-shine T10 tube adopts 4014 SMD LED as light source, CRI>80.

Built-in AL6063 aluminum heatsink. V0 fire-rated full PC cover up to 95% light transmittance.

IP65 waterproof structural design.

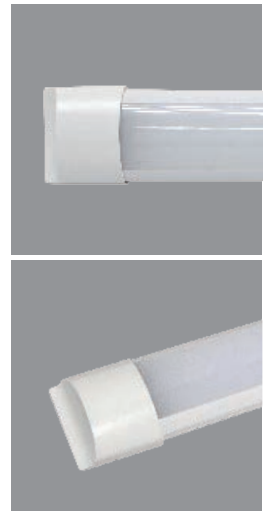

It's an ideal choice for indoor and outdoor lighting environment. 240 degree wide beam angle makes it to be the first option for the advertising and sign lighting.

Suitable for commercial and residential applications like offices, supermarkets, shops, schools, hotels, restaurants, workshop, warehouse, homes etc.

Super Slim LED Batten AL17 / AL17F

Up-shine practical battens are newly developed for Oceania and Europe market. It is available in 21W 32W & 42W with size of 600mm 900mm and 1200mm.

Featuring high grade polycarbonate diffuser and aluminum housing, it is suitable for commercial and industrial use, such as super market, garage, office building, workshop etc.

Economic LED Batten range offers cost effective reliability, the choice of body material and electronic components are all impacted by our desire to produce the highest quality products worldwide at a value for money price.

T8 Diffused Batten AL06

Suitable for ceilings, walls or pendant mounting.

AA12 prismatic diffuser for visual comfort.

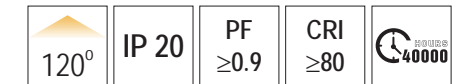

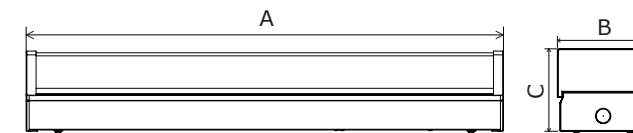

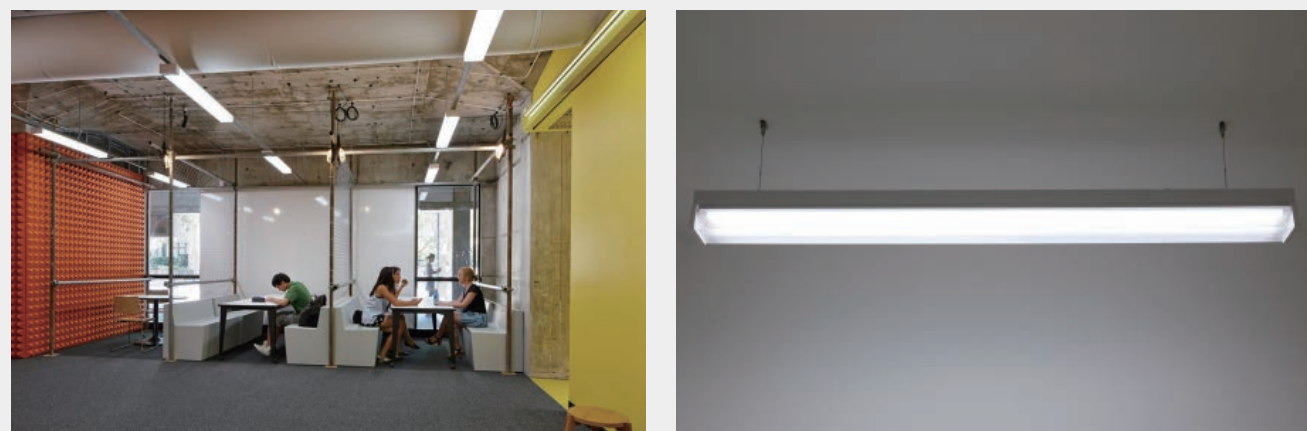

Cover plate held securely by threaded nut for fast installation.

High quality white epoxy powder coated finish.

Large terminal block for ease in installation.

New plastic snap-on end caps for easy installation of diffuser.

Application: All commercial, industrial and domestic applications.

Super Slim LED Batten DB01

Compared with Up-shine regular batten, DB01 is a new design with zero distance & seamless connection installation.

Stretching Aluminum is employed both on lamp housing and end caps, aims at maintaining color consistency of surface treatment during production.

It is impressive in texture and workmanship.

As an easy replacement of traditional grille and tube, batten makes itself outstanding with fast installation and easy connection between each unit, maximally reduce electrician cost.

Super Slim LED Batten DB05

Up-shine batten realizes elegant design, low cost, super slim construction and superior capability, aluminium profile body for good thermal dissipate, surface color treatment is customizable. Easy installation provided with surface mounted and suspended. It is a high efficient and low cost product with quite large potential market.

Application: Widely used in office, meeting room, hotel, school etc.

**Double Side Emitting LED Batten
DB15**

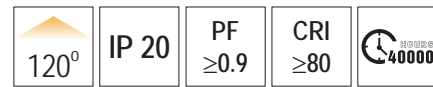

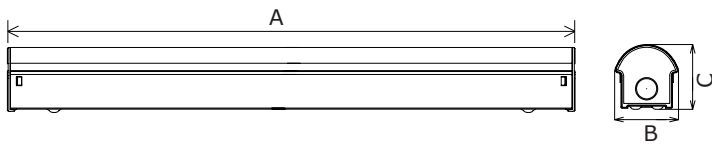

DB15 suspending led batten light is a double-emitting luminaire designed with 270° wide beam angle. Distribute 60% lumens downwards to satisfying the basic requirement for activities and 40% lumens upwards to creating a brilliant lighting atmosphere. The double-emitting batten is equipped with high brightness SMD LED in high color rendering and top quality LGP to provide extremely uniform lighting. Appearance design looks fashionable and elegant with unique round curved profile, this makes our DB15 ideal for decorative and illumination.

UP-WL01

Double-head wall lamp comprises a bottom seat and a lamp body.

Lamp heads are arranged on both ends of the lamp body.

The illuminate directions of the two lamp heads are opposite.

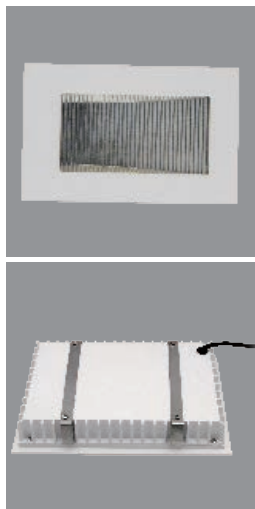

The rotatable LED double-head wall lamp is simple and reasonable in structure, low in production cost, convenient to mount and use and good in heat dissipation effect, two illuminating faces with opposite directions are arranged, the illuminating directions can be adjusted by rotating the lamp body, rotating is flexible and convenient, attractiveness is achieved, and decorating effect is good.
